

## Product Information

# ZOFF ENGINE DEGREASER

Zoff is a blend of clear, low viscosity aromatic liquid solvents and wetting agents giving rapid penetration and removal of heavy levels of grease, oil and other industrial contaminants on engines, machinery and all metal and painted surfaces.

Zoff gives excellent results whether used for cleaning smaller engine parts, in the home, garage or for major engine or machinery cleaning in industrial applications.

A Safety Data Sheet is available for this product on request.

### ◆ DIRECTIONS:

Zoff can be used either in a soak tank or be applied with a brush. Simply brush on working well into heavy soiled areas. Allow to soak for a few minutes then rinse by hosing off with water.

### ◆ PRESENTATION:

Zoff is available in the following pack sizes:

- 4 litre tins
- 20 litre pails
- 200 litre drums

### ◆ HAZARDS:

Caution - flammable material - flashpoint 31 degrees Celsius. Care should be taken to avoid possible ignition, proximity to naked flame or use on hot machinery, engines etc. Zoff should only be used in areas offering adequate ventilation and gloves should be worn to protect sensitive skin.

### ◆ FIRST AID:

If swallowed: do not induce vomiting. Rinse mouth with water and give water or milk to drink. Seek medical assistance.  
For eye or skin contact: flush with water. If irritation develops seek medical attention.
