

Product Information

MEGAWASH VEHICLE & BUILDING WASH

MEGAWASH Vehicle and Building Wash is designed for quick and economical vehicle cleaning through high pressure spray equipment, although manual application can be used successfully. MEGAWASH Vehicle and Building Wash contains a blend of detergents that cut rapidly through road film and exerts a powerful emulsifying action. MEGAWASH Vehicle and Building Wash chemistry is fully biodegradable and is especially formulated with low alkali content to ensure that paint work stays bright and shiny.

U USES:

For use in spray or brush applications for cleaning buildings, cars, trucks, buses, vans and motorcycles.

U Directions:

Optimum cleaning is achieved by foam spraying the entire surface from the bottom up leaving for approximately 10 minutes but **DO NOT ALLOW TO DRY.** Then pressure rinse from the bottom up with the nozzle outlet 15-30cm from the vehicle surface. Final rinse from the top to the bottom using at least 500 psi (3445 kPa) pressure.

Nominal Dilution Ratio:

Pressure Washing:
Up to 1-40 parts water

Brushing or light duty:
Up to 1-100 parts water

Water blasting-
degreasing: Up to 1-20
parts water

U BIODEGRADABLE:

The surfactants in this product are biodegradable according to internationally accepted criteria.
