

Product Information

CLINITOL DISINFECTANT

Clinitol is a premium quality broad spectrum clinical disinfectant providing complete protection against a wide range of micro-organisms. Clinitol's unique formula is based upon the natural disinfectant and deodorizer, pine oil. It also contains Dichlorometaxylenol enabling it to be used with confidence as a skin antiseptic or as a powerful disinfectant for domestic, surgical or veterinary applications.

◆ DIRECTIONS:

Domestic Use:

Apply in cold water diluting as follows:

- For first aid and personal hygiene: (Minor cuts, abrasions, stings, acne etc):
Use 40 mls per litre of water.
