

Product Information

GEOSIL DS

Geosil DS is a highly effective, environmentally friendly, universal disinfectant. Being odourless, tasteless and ready to use (no further dilution or mixing required) this universal sanitizing spray with many advantages over traditional disinfectants.

- Environmentally friendly – leaves no residue and breaks down into oxygen and water.
- Non toxic – will not cause skin irritation or allergic reactions. Neither carcinogenic nor mutagenic.
- Odourless – eliminates foul odours caused by bacteria and does not mask them with a fragrance.
- Eliminates all pathogenic micro organisms – works by destroying the pathogenic cellular structure through oxidation, meaning they cannot build immunity over time.

Geosil DS is the ideal disinfectant for work surfaces, instruments, sanitary installations, saunas, solaria, refrigerators, cutting boards, utensils, ventilation grills, drains, shelves, animal housing, dustbins, etc and is considered one of the safest, most reliable disinfection solutions, even under the most unfavourable conditions. This makes Geosil DS ideal for use in hospitals, schools, kindergartens, rest homes, etc.

◆ DIRECTIONS:

Add to spray bottle and spray the area to be disinfected from a distance of approx 30 cm. In order to ensure effective disinfection leave for an exposure time of approx 5 to 10 minutes. The treated objects/articles can be used after this time or after the surfaces have dried. No rinsing is necessary, except where required by the NZFSA C43 approval

◆ BIODEGRADABLE:

Geosil DS is biodegradable and rapidly breaks down into oxygen and water.

◆ PRESENTATION:

Geosil DS is available in 5, 20 and 200 Litre containers.

◆ APPROVALS:

Geosil DS is NZFSA Approved C43 (all animal products except dairy).

AgriQuality Approved for use in food/beverage/dairy factories (Food contact surfaces) Ref. H1475

◆ SAFETY PRECAUTIONS:

Contains approximately 1.5% Hydrogen peroxide and up to 0.0018% silver. Keep out of reach of children. Store upright, in original vented container, at a temperature between 5 and 25°C. Do not expose to heat. Geosil DS should not be sprayed into the eyes or inhaled.

◆ FIRST AID:

If swallowed: do not induce vomiting. Rinse mouth with water and give water or milk to drink. Seek medical attention.
For eye contact: flush with water. Seek medical attention.
For skin contact: rinse with water. If irritation develops: seek medical attention.
For inhalation: move to fresh air.

A Safety Data Sheet is available for this product on request.
