Auto Dish Wash Detergents

Starbright Dishwasher Powder

Concentrated dishwasher powder specially formulated to produce excellent results in Automatic dishwashing machines.

Appearance: White granular powder
Dilution Rate: As recommended by machine manufacturer
Packaging: 4kg
NZFSA: C31
pH: 6 (1% solution)
Fragrance: Non fragranced

Wizz Wash – Commercial Dish Wash Liquid

Chlorinated alkaline commercial dishwasher liquid with high grease and soil penetration and low residue.

Appearance: Yellow liquid
Dilution Rate: 2 – 4 mls per litre of water
Packaging: 5ltr/20ltr/200ltr
NZFSA: C31
pH: >11 (1% solution)
Fragrance: Non fragranced

Rinse Aid for Auto Dishwashers

Finishing liquid for auto dishwashers leaving glassware, cutlery and crockery sparkling and Free from water spotting.

Appearance: Blue liquid
Dilution Rate: As recommended by machine manufacturer
Packaging: 5ltr
NZFSA : C31
pH: 11 – 11.5 (1% solution)
Fragrance: Non fragranced

Degreasers

Strive All Purpose Cleaner (Non Perfumed)

Concentrated alkaline multipurpose cleaner/sanitiser for use on all washable surfaces.
Cleans, sanitises and degreases in one operation. Non fragranced for use in food industries.

Appearance: Light blue liquid
Dilution Rate: 50 mls per litre of water
Packaging: 5ltr/20ltr/200ltr
NZFSA : C31
pH: 11 – 12 (1% solution)
Fragrance: Non fragranced

Strive All Purpose Cleaner (Perfumed)

Concentrated alkaline multipurpose cleaner/sanitiser for use on all washable surfaces.
Cleans, sanitises and degreases in one operation. Not suitable for cleaning polished floors.

Appearance: Blue liquid
Dilution Rate: 50 mls per litre of water
Packaging: 5ltr/20ltr/200ltr
NZFSA: C32
pH: 11 – 12 (1% solution)
Fragrance: Tropical fragranced

Supaclene

A strong alkaline cleaner with effective grease cutting power to clean hard surfaces.

Appearance: Red liquid
Dilution Rate: 40 – 50 mls per litre of water
Packaging: 5ltr/20ltr/200ltr
NZFSA: C31
pH: 10 – 12 (1% solution)
Fragrance: Non fragranced

Liquid Ammo

Ammoniated all purpose cleaner which quickly and easily removes heavy grease or dirt contamination.

Appearance: Opaque white, Liquid
Dilution Rate: 10 mls per litre of water
Packaging: 5ltr/20ltr
NZFSA: C31
pH: 10.5 – 11.5
Fragrance: Non fragranced with faint ammonia odour

Sanitisers

Hyposal

Chlorinated liquid detergent with cleaning and sanitising properties. Ideal for use on hard surfaces where strict clinical standard hygiene/sanitising standards are required.

Appearance: Pale yellow semi-viscous liquid

Dilution Rate: 10 – 60 mls per litre of water

Packaging: 1ltr/5ltr/20ltr

NZFSA: C31

pH: > 11.5 (1% solution)

Fragrance: Faint chlorine odour

Foam Plus

Chlorinated liquid detergent with high foaming properties for cleaning and sanitising, using foam application.

Appearance: Pale yellow liquid

Dilution Rate: 20 mls per litre of water

Packaging: 20ltr

NZFSA: C31

pH: > 11.5 (1% solution)

Fragrance: Non fragranced

Aquableach

Chlorine based bleach with many uses as a sanitiser and bleaching agent.

Appearance: Pale yellow liquid

Dilution Rate: 5 – 30 grams per litre of water

Packaging: 2ltr/5ltr/20ltr/200ltr

NZFSA: C31

pH: 8 – 10 (1% solution)

Fragrance: Faint chlorine odour

Austral sanitising cleaner

Neutral pH cleaner/sanitiser formulated to give economical yet effective cleaning while providing a residual sanitising action. Suitable for cleaning polished floors.

Appearance: Green liquid

Dilution Rate: 50 mls per litre of water

Packaging: 5ltr/20ltr

NZFSA: -

pH: 7

Fragrance: Red current fragranced

GeoSIL- Universal Antiviral Disinfectant

GeoSIL

A universal no-gap biocide/virocide. Ecologically safe, can be used to sanitise drinking water. An alternative to Chlorine in Swimming Pools and Spas. Used extensively in the agricultural horticultural and food processing industries.

Appearance: Clear, colourless liquid
Dilution Rate: Differs per application
Packaging: 5ltr/20ltr
NZFSA: -
pH: 1 – 4
Fragrance: Non fragranced

GeoSIL 150

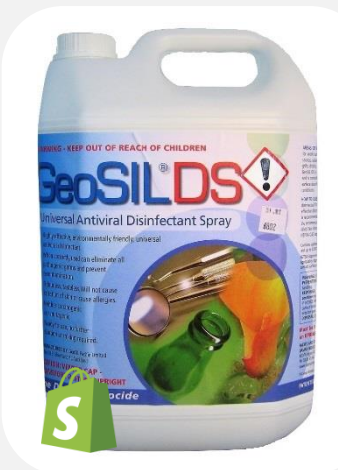

Environmentally friendly, general purpose anti-viral disinfectant. Totally chlorine free and suitable for a wide variety of commercial and domestic uses.

Appearance: Colourless liquid
Dilution Rate: 2 litres per 15,000 litres of water
Packaging: 5ltr/20ltr
NZFSA: C61
pH: 2 - 4
Fragrance: Non fragranced

GeoSIL DS

A universal ready to use disinfectant spray based on Hydrogen Peroxide and Colloidal Silver. Ecologically safe. Ideal for food industry applications as it leaves no odour or taste.

Appearance: Colourless liquid
Dilution Rate: Use undiluted
Packaging: 5ltr/20ltr
NZFSA: C41
pH: 2 - 4
Fragrance: Non fragranced

General Purpose Cleaners

Crème Cleanser

Liquid scourer which cleans surfaces without harsh scratching.

Appearance: White, viscous liquid
Dilution Rate: 50 mls per litre of water
Packaging: 5ltr/20ltr
NZFSA: C32
pH: 7
Fragrance: Lemon fragranced

Swipe Citrus Cleaner

Concentrated multipurpose cleaner containing natural d-limonene to rapidly clean hard surfaces leaving a citrus fragrance behind.

Appearance: Orange liquid
Dilution Rate: 50 ml per litre of water
Packaging: 5ltr/20ltr
NZFSA: C32
pH: 10 – 12 (1% solution)
Fragrance: Citrus fragranced

Heavy Duty Hand Cleaners and Protectors

True Grit Hand Cleaner

High quality hand cleaner with similar properties to HDC but with the addition of polymer grit to help remove stubborn in-grained dirt.

Appearance: Opaque, white gel
Dilution Rate: Use undiluted
Packaging: 3.5kg/18kg
NZFSA: C52
pH: 10 - 11
Fragrance: Sea-breeze fragranced

HDC Hand Cleaner

Premium quality gel hand cleaner with powerful cleaning properties. Contains antiseptic to protect against cuts and abrasions from becoming infected.

Appearance: Opaque, blue, gel
Dilution Rate: Use undiluted
Packaging: 3.5kg/18kg
NZFSA: C52
pH: Approx 7
Fragrance: Bubblegum fragranced

Barrier Cream

The perfect partner to HDC and True Grit hand cleaners, this silicon based cream protects the skin and enhances the removal of contaminants.

Appearance: Opaque white, semi-viscous liquid
Dilution Rate: Use undiluted
Packaging: 500ml/1ltr
NZFSA: C52
pH: 10 – 11
Fragrance: Lemon-floral fragranced

orders@clarkproducts.co.nz

LAUNDRY

Laundry Powders

Clark's Laundry Powder

Premium quality enzymated laundry powder formulated for use in all types of machine and in hot or cold water.

Appearance: White free flowing powder

Dilution Rate: $\frac{3}{4}$ - $1 \frac{1}{4}$ cups per wash

Packaging: 5kg/10kg/25kg

NZFSA: -

pH: 10.5 – 11 (1% solution)

Fragrance: Woody, floral fragranced

Laundry Pre-soak / Nappy Sanitiser

Oxygen bleach powder for pre-soaking or stain treatment for white and coloured fabrics.

Appearance: White, free-flowing powder

Dilution Rate: $\frac{3}{4}$ - $1 \frac{1}{4}$ cups per wash

Packaging: 2kg/10kg

NZFSA: C33

pH: 10.5 – 11 (1% solution)

Fragrance: Non fragranced

Laundry Liquids

Austral Liquid Laundry

Liquid detergent formulated to give good economical performance in all types of washing machines and in hot or cold water.

Appearance: Blue liquid
Dilution Rate: 50 – 70 mls per wash
Packaging: 5ltr/20ltr/200ltr
NZFSA: -
pH: Approx 7
Fragrance: Lemon fragranced

Smoochy Fabric Softener

Premium quality liquid fabric softener which softens and imparts antistatic protection to fabrics and garments in laundry applications.

Appearance: Opaque, turquoise liquid
Dilution Rate: 50 – 80 mls per wash
Packaging: 5ltr/20ltr/200ltr
NZFSA: -
pH: 8 – 9 (1% solution)
Fragrance: Powdery floral with citrus overtones

Soda Crystals

Washing Soda Crystals

An easily dissolved, environmentally friendly natural product with low allergy properties; making it a versatile, multipurpose hard surface cleaner and laundry product.

Appearance: Clear to white crystals
Dilution Rate: As required
Packaging: 1kg/25kg
NZFSA: C31
pH: 10 – 11 (1% solution)
Fragrance: Non fragranced

WASHROOM

Toilet Products

Bowlguard Toilet Cleaner

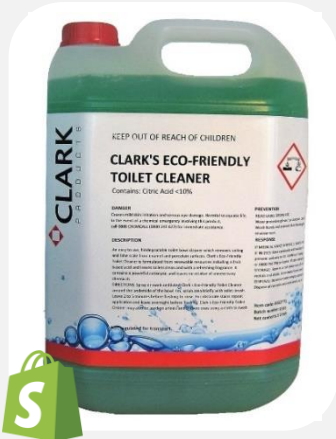

Acid based liquid which cleans and disinfects in one simple operation. Helps remove rust and mineral stains. Ideal for cleaning stainless steel urinals.

Appearance: Opaque, blue, semi-viscous liquid
Dilution Rate: 150 – 250 mls per 20 litres of water
Packaging: 1ltr/5ltr/20ltr/200ltr
NZFSA: C32
pH: 2 - 3
Fragrance: Eucalyptus fragranced

Clark's Eco-Friendly Toilet Cleaner

Eco-friendly, easy to use, biodegradable toilet cleaner which removes soiling and lime scale from enamel and porcelain surfaces.

Appearance: Opaque, green, semi-viscous liquid
Dilution Rate: Use undiluted
Packaging: 5ltr
NZFSA: C32
pH: 2
Fragrance: Clean, fresh, eucalyptus fragranced

Loo Blue

Formaldehyde free sanitiser for use in portable and chemical toilets, boats and campervans

Appearance: Dark blue liquid
Dilution Rate: Use undiluted
Packaging: 5ltr/20ltr/200ltr
NZFSA: C32
pH: < 2
Fragrance: Redcurrant fragranced

CLARK BRAND AEROSOLS

Multi Foam (Surface Cleaner)

This all purpose spray is ideal for kitchens, bathrooms, walls, floors, electrical appliances and other areas where grease and grime build up.

Stainless Steel (cleaner and Polisher)

This spray has non-abrasive formula that will clean, polish and protect your stainless surfaces. So they stay cleaner for longer.

Oven Cleaner (Heavy Duty)

This heavy duty formula will cut through any stubborn baked-on grease and grime, no Scraping Required.

Insect Killer (Low Odour)

This formula works quickly to kill flies, mozzies, spiders, cockroaches and most other flying and crawling insects. The fine, dry spray remains air borne for longer and leaves less residue on Surfaces.

GENERAL PURPOSE THINNERS 1LTR	SULPHURIC ACID 38% 25 KG
GLYCERINE BP 25KG	SULPHURIC ACID 98% 5 LTR
HYDROCHLORIC ACID 5LTR TECH 33%	SULPHURIC ACID 98% 25 KG
LINSEED OIL 1LTR	TRICHLOROETHYLENE 5 LTR
ISO PROPYL ALCOHOL TECH 5LTR	XYLOL 20 LTR
SO-PROPYL ALCOHOL TECH 20LTR	WHITE SPIRITS 1 LTR

CHEMICAL SAFETY...

- **Before commencing use always read the label thoroughly.**
- **Always store chemicals safely and in accordance with the local regulations - ideally under lock and key.**
- **If in doubt consult the label or if you have any questions or concerns call our office, phone (06) 843 3163.**
- **Always treat chemicals with respect and care.**
- **Never mix chemicals.**
- **Never store acids and alkaline chemicals in the same area.**
- **Never dispose of unidentifiable chemical to waste. Contact your local authority for disposal guidelines.**
- **In the event of an emergency consult the label first, then the Material Safety Data Sheet (MSDS) for more detailed information. Ensure Material Safety Data Sheets are on hand, and staff know where to locate a master copy should they need to.**

NZFSA APPROVALS

The following are some of the Ministry for Primary Industries approval guidelines which relate to some of our products. They are an abbreviated guide only and should NOT be used to replace the authorized MPI approval classifications. Please refer to the MPI Approvals Handbook for a full explanation of the guidelines.

- C23** This may be used in edible areas. Before use all edible product must be removed from the room. No edible product is permitted in the room until all treated surfaces have been adequately protected with an approved coating. Where incidental contact with the food surface occurs, the surface must be thoroughly cleaned and washed to ensure that no residue remains.
- C31** This may be used in all areas. Before use all edible product and packaging must be removed from the room. After using this compound food surfaces must be thoroughly rinsed with potable water before production starts.
- C32** This may not be used in edible areas. The perfume must not be used to mask the odours of unsanitary conditions. This compound must be used in a manner that prevents the perfume invading any edible area.
- C33** This is a laundry compound. If treated fabric directly or indirectly comes into contact with edible product, a thorough rinse with potable water must follow the laundering process.
- C35** Window cleaner for all areas. No edible product is permitted in the room during cleaning. Incidental contamination of food contact surfaces must be thoroughly cleaned then rinsed with potable water.
- C37** General purpose detergent which is not for use on food surfaces but may be used on floors and walls. Before using this compound in food areas, all product and packaging material must be removed from the room. Accidental spillage onto food surfaces must be thoroughly rinsed off with potable water.
- C41** This may be used in all areas. Before use all edible product and packaging material must be removed from the room or carefully protected. After use, surfaces must be thoroughly rinsed with potable water before production starts. This product must always be used at dilutions recommended by the manufacturer.
- C43** This may be used as a no-rinse sanitiser on clean hard surfaces in licensed or registered premises which are restricted only to processing of fish. Before use, all edible products and packaging material must be removed from the room or carefully protected. After use, a rinse with potable water is not required but food contact surfaces must be thoroughly drained to minimise residues. When used as a sanitiser in other licensed or registered premises, surfaces must be thoroughly rinsed with potable water before production starts. This compound must always be used at the dilutions recommended by the manufacturer.
- C51** This may be used as a hand washing and sanitising compound in all areas. After using this compound, hands must be thoroughly rinsed with potable water. There must be no odour left on hands.
- C52** Barrier creams, dermatological cream, hand cleaner or body wash. This compound cannot be used by persons employed in slaughter or handling edible product at any stage during dressing or processing. This compound is not permitted in slaughter, dressing or processing areas.
- C54** This may be used as a hand sanitising compound in all areas. The compound must be supplied from a fixed, metered dispenser located a sufficient distance from the processing line to prevent product contamination. Before the sanitiser is applied, hands must be clean. This includes washing the hands where necessary. After use, the hands need not be rinsed but must be dry before the operator returns to the processing line.
- C102** This compound must not be used in any area where edible products are processed, packaged or stored. It may be used in edible processing areas or external areas. The compound must not be used to mask the odours of unsanitary conditions. Compounds must be used in a manner that prevents any perfume invading an edible area.
