Formula T36 Alkaline Detergent Wash

Non fragranced alkaline vehicle and machinery cleaner concentrate for the removal of road film, oil and dirt from machinery, caravans, truck and trailer canopies etc. Dilutions between 1:20 to 1:100 depending on use.

Available Sizes: 5 Litre, 20 Litre, 200 Litre

Zoff Solvent Degreaser

Solvent based engine degreaser which rapidly penetrates and removes heavy grease, oil and other contaminants on engines, machinery and all metal and painted surfaces. Holds up to 10 times its weight of grease & oil.

NZFSA Approved C37

Available Sizes: 200 Litre

Megawash Vehicle & Building Cleaner

A building and vehicle cleaner concentrate designed for quick and economical use through pressure spray equipment, foam guns or manual application. Its blend of detergents cut rapidly through road film and exerts a powerful emulsifying action. Dilutions between 1:20 to 1:100 depending on use.

NZFSA Approved C37

Available Sizes: 5 Litre, 20 Litre, 200 Litre, 1000 Litre

Rid Rust Metal Treatment

Phosphoric acid based liquid metal treatment which removes and kills rust on ferrous metals and removes tarnish on non-ferrous metals when diluted.

NZFSA Approved C23

Available Sizes: 5 Litre, 20 Litre, 200 Litre

Kleencrete

A strong alkaline powder formulated to remove oil and grease from concrete. Safe for use on asphalt. Designed to be sprinkled on to wet concrete, scrubbed and hosed off.

Kleencrete is also effective as a general cleaner for concrete steps and working floors. NZFSA Approved C37

Available Sizes: 4kg, 20kg

Creteaway Hi-Strength

A general purpose acidic cleaner and sanitiser based on phosphoric acid and proven performance boosting surfactants. Contains proprietary thickening agents to improve dwell time. Can be utilised for removing mineral and scale in Food & Beverage Manufacturing premises as well as for safe cleaning of concrete trucks and equipment.

NZFSA Approved C31

Available Sizes: 5 Litre, 20 Litre, 200 Litre

Clark Eco Degreaser

An effective and environmentally safe water based degreasing solution.

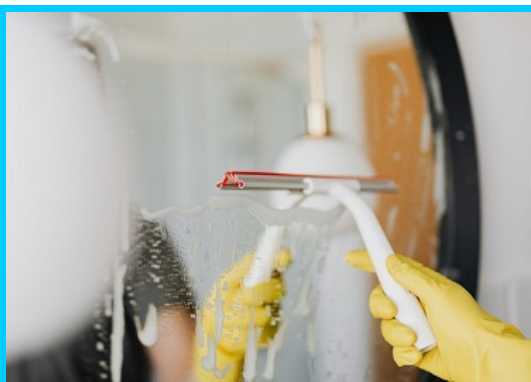

The formulation includes a selection of wetting agents, biodegradable emulsifiers and natural orange oil extract. This combination is very effective for removing grease, oil and soils while having a minimal impact on the environment.

NZFSA Approved C32

Available Sizes: 5 Litre, 20 Litre, 200 Litre

BATHROOM CLEANERS

Showergloss

Showergloss is a mildly acidic general purpose hard surface sanitising cleaner, specially formulated for use on stainless steel, aluminium, ceramic, fibreglass, plastic and laminated surfaces to remove stains, calcium scale and soapy or greasy deposits, producing a sharp, clean, shining finish. Showergloss is ideal for baths, showers, hand basins, tubs etc.

NZFSA Approved C32

Available Sizes: 500ml

LAUNDRY

Aquableach

Aquableach is a sodium hypochlorite based bleaching compound with many uses as a sanitiser and bleaching agent. Aquableach is ideal for whitening and removing stains from linen etc. and for the treatment of drains, toilet bowls, sinks etc. Aquableach is also useful for removing algae and lichen from roofs, walls and concrete floors.

NZFSA Approved C41

Available Sizes: 2 Litre, 5 Litre, 20 Litre, 200 Litre

Laundry Presoak & Sanitiser

A premium quality oxygenated soak/wash sanitiser for pre wash treatment of stains and other contamination on linen and garments and for laundering and disinfecting soiled nappies. Laundry Presoak is biodegradable within internationally accepted criteria

NZFSA Approved C33

Available Sizes: 2kg, 10kg, 25kg

Clarks Laundry Powder

A high quality all temperature laundry powder containing enzymes, Clarks Laundry Powder dissolves quickly in hot or cold water. It can be used in all types of washing machines and is biodegradable.

Available Sizes: 5kg, 10kg, 25kg

Clarks Washing Soda Crystals

A multipurpose, easily dissolved, low allergy natural product and it contains approximately 40% sodium carbonate. This versatile product has been used for many years in a variety of domestic & industrial applications. It is a non-toxic, user-friendly product to use and store, providing useful and inexpensive cleaning either on their own or as a companion to most alkaline cleaners. Is regularly used as a hyper allergenic laundry solution and for many degreasing and cleaning operations around the house.

NZFSA Approved C31

Available Sizes: 1kg, 25kg

Austral Liquid Laundry

Austral Liquid Laundry Detergent cleans in hot and cold water producing excellent results in domestic or commercial laundry applications. Ideal for spot and stain pre-treatment on fabrics.

Available Sizes: 5 Litre, 20 Litre, 200 Litre, 1000 Litre

Smoochy Fabric Softener

Smoochy Fabric Softener imparts softness to both cotton and blended fabrics.

It reduces static-cling and linting and can be used in all washing machine operations or for hand washing. Smoochy contains a soft fragrance that remains with fabrics after drying leaving it soft and smelling vitalised.

Available Sizes: 5 Litre, 20 Litre, 200 Litre,

OUTDOOR & GLASS

Windowclear

Windowclear is specially formulated to provide rapid streak-free cleaning of all glass surfaces with a wipe on - wipe off application.

NZFSA Approved C35

Available Sizes: 5 Litre, 20 Litre, 200 Litre

Sub 30 Moss & Mould Remover

A non-chlorine liquid formulated to kill moss, lichen, mildew and slime on roofs, decks, awnings, walls, steps, cobblestones, garden furniture, umbrellas, etc. Safe to use on tar seal drives, synthetic tennis courts and playgrounds.

Very simple to use – Just soak it and leave it, let the weather do the work!

Because it contains a Quaternary Ammonium Chloride as its main active ingredient

Sub 30 offers these advantages over chlorine-based moss killers:

- Less corrosive and so can be applied to any building without risk of damage.
- Keeps indefinitely on the shelf without loss of strength.
- For some time after application it will reactivate and work again when rained on, and so moss and mould will not regrow as readily.

Also suitable to use as a soak disinfectant for Food & Beverage Applications.

Available Sizes: 5 Litre, 20 Litre, 200 Litre

Supaclene Heavy Duty Cleaner

Supaclene is a versatile spray and wipe cleaner ideal for all washable surfaces.

Supaclene has a high alkaline formula incorporating solvents for rapid cleansing of walls ceilings, floors, plastics and vinyl. Supaclene can also be used for effective cleaning of oil and grease from concrete floors in industrial buildings and garages, and for cleaning car engines and engine compartments.

NZFSA Approved C31

Available Sizes: 5 Litre, 20 Litre, 200 Litre, 1000 Litre

SANITISERS

Hyposal

Hyposal is a thickened alkaline chlorinated liquid general purpose cleaner/sanitiser which finds application primarily in rest homes, hospitals, mortuaries, etc. as well as at home. This hospital grade disinfectant is designed to kill germs and obliterate dirt and mould from hard surfaces. Its versatility means it can be used for cleaning tasks as diverse as toilets, showers, bathroom surfaces, waste pipes, drains and kitchens - anywhere you need hygienically clean results.

NZFSA Approved C32

Available Sizes: 1 Litre, 5 Litre, 20 Litre, 200 Litre

Foam Plus MK II

A chlorinated, liquid detergent with high foaming properties for heavy duty cleaning and sanitising applications in meat and food processing plants. Foam Plus Mk2 is used to remove fats, proteins and general soils from floors, walls and other hard surfaces. Ideal for butcheries and fish processing areas.

NZFSA Approved C31

Available Sizes: 20 Litre, 200 Litre, 1000 Litre

GeoSIL®DS

A non-chlorine based, environmentally friendly, general purpose anti-viral disinfectant, suitable for a wide variety of commercial and domestic uses. It is safe to handle and use, is tasteless and odourless, and will not cause skin irritations or other allergic reactions. GeoSIL®DS can be used directly as a powerful surface disinfectant, and is safe to use around food, and food contact surfaces. It can be used full strength or diluted with clean tap water as desired.

NZFSA Approved C41, NZFSA Approved C43, NZFSA Approved C61

AssureQuality Organics Approved

Available Sizes: 5 Litre, 20 Litre, 200 Litre

GeoSIL DS Surface Wipes

A superior anti-viral disinfectant for sensitive areas such as childcare centres, schools, veterinary surgeries and food prep areas.

Geosil DS wipes are suitable for a wide variety of commercial & domestic uses, also ideal in emergencies. Geosil Surface Wipes are considered one of the safest, most reliable modern surface disinfection solutions, even under the most unfavourable conditions.

SANITISERS

GeoSIL 150

GeoSIL150 is an environmentally friendly, general purpose anti-viral disinfectant. It is totally chlorine free and suitable for a wide variety of commercial and domestic uses. GeoSIL150 is a versatile, lightly concentrated version of GeoSIL® Universal Disinfectant and is safe to transport, handle and use without special conditions. It is tasteless and odourless, will not produce undesirable disinfection by-products, cause skin irritations or other allergic reactions. After use, GeoSIL150 breaks down into water and oxygen. GeoSIL150 can be diluted to any suitable strength for use as a powerful surface disinfectant, and is safe to use around food, and food contact surfaces. It can be used full strength for dosing of drinking & horticultural water supplies, cooling towers and process water tanks. It is ideal for use in swimming pools and spas as a totally chlorine free treatment, and can also be diluted for use around the pool to disinfect and deodorise toilets and amenities. It can safely be used to disinfect and protect rural domestic rainwater storage tanks and household systems, used in buildings to protect against legionella and other bacterial infections, and around the home, farm, boat, or factory as a safe effective antiviral disinfectant. NZFSA Approved C41, NZFSA Approved C43, NZFSA Approved C61 AsureQuality Organics Approved

Available Sizes: 5 Litre, 20 Litre, 200 Litre

GeoSIL® Concentrate

GeoSIL® Concentrate is a patented chemical developed in Switzerland, and represents a new generation of Eco-harmless, 100% biodegradable biocides for the control of a full range of water borne pathogens and bacteria. GeoSIL® Concentrate is a powerful oxidiser and is bonded with stabilising agents to produce a highly effective, long lasting multicomponent disinfectant.

GeoSIL® Concentrate is:

- Effective against bacteria, viruses, amoebae, fungi and algae.
- More stable, effective and longer lasting than Chlorine or Bromine.
- Suitable for the disinfection of drinking water, food areas, pools and spas, etc.
- Ecologically harmless, biodegradable, and non-polluting.
- Safe and easy to handle once diluted, clear, tasteless and odourless liquid.
- Ideal for Post-Harvest Fruit & Vegetable washing to extend shelf life.

The universal and wide range of applications, means GeoSIL® disinfectants are considered to be among the safest, most reliable and modern disinfection solutions, even under the most unfavourable conditions.
